Better Roses

With this new issue of our annual catalogue, we are going into our twentieth year in the exclusive culture of rose bushes, and we are pleased to offer again to our customers "only the very finest available rose stock for the grade named."

Our genuine enthusiasm and confidence that we can offer the very best roses at competitive prices is shared in by our long and mounting list of highly satisfied customers.

To you new prospective buyers, we want to emphasize the vigorous and solid rooting system attained by our plants. At a glance you see a great quantity of healthy, well distributed roots that are so fibrous as to stand rigorous bending and twisting. The results of such a solid foundation are easily apparent. Growth does not lag when you "set them in;" the plants bloom earlier and more profusely; sturdy, durable bushes present a more attractive appearance—thus, your roses really SELL.

Give Us A Trial

Won't you convince yourself by sending us a trial order. Let us prove our point.

We invite your inspection.
